

Video Requirements and Recommendations

- Each video should be titled with Skater First and Last Name, Level Event.
 - For example, "Tammy Twizzle, Juvenile Light Entertainment".
- Skaters may submit one video/event per deadline.
- Video must be high or recognizable resolution.
- Videos should be uploaded to the skater's video sharing platform of choice (Youtube, Google Drive, Vimeo, Dropbox, etc). Skaters will provide a link to the video when submitting their registration; video sharing settings should be set to allow anyone with the link to view.
- Skaters should wear their competition attire or black. Skaters do not need to purchase a new costumer for this event; however, this is a video that will be presented to a panel of officials and should be viewed as more formal than simply skating a program in practice.
- Video submissions will not contain any editing, splicing and must be recorded from one angle. Any videos that are deemed edited will be automatically disqualified. You will be given one chance to resubmit a video, if found to be edited on the second submission the skater will be disqualified and no refunds given.
- The skater will be required to confirm that their program has not been edited in any way on the submission form.
- We recommend that the person videoing the program be standing as close as possible to the red line and slightly elevated (not on the ice). We understand some rinks have limitations as to who is allowed in the rink and this may not be achievable. Please do the best you can given the rules and restrictions in place at your individual rink.
- Please record in landscape mode (not vertical).
- You will not be judged or scored based on the quality or location of video.
- Videos can be recorded with a computer, tablet, phone, or camera.
- Do your best to make sure the music is loud enough for the officials to hear when they replay the videos during the judging process. We recommend you turn up the music when you record the program being skated on the ice.
- Make sure the skater's full body is always visible during their skating performance, including their skates & blades.
